

Anotaciones

Arbol:

Protein

tr|3MBR1|3MBR1_CTTR

Length 473 amino acids

Protein family membership

- CD36 family (IPR002159)
 - CD36/scavenger receptor class B member 1 (IPR005428)
 - CD36 (IPR033076)

Homologous superfamilies none

Domains and repeats none

Detailed signature matches

- IPR002159 CD36 family
 
- IPR005428 CD36/scavenger receptor class B member 1
 
- IPR033076 CD36
 

Other features

GO Term prediction

Biological process GO:0006955 immune response GO:0007166 cell surface receptor signaling pathway	Molecular function None predicted.	Cellular component GO:0016020 membrane
